DESIGN FLOORS

Creative decors and  
innovative sizes

**JAB**  
ANSTOETZ  
FLOORING

# Be inspired

Authentic-looking wood and stone decors, life-like embossed surfaces and unusual XL formats – these are the highlights of our new design floor collection.

Twisted Wood Nature J-40024

Whether modern or classic, rustic or elegant – our multifaceted selection of design floors offers creative freedom for realising your individual interior style. Easy-care properties and superior quality processing ensure that your new floor retains its beauty for a long

time to come. Whether alone, or combined with fabrics and rugs from JAB ANSTOETZ – **Design Floor LVT** becomes your home's very personal signature.

Design Floor LVT convinces with its true-to-nature wood and stone decors. The genuine character is underscored with finely textured surfaces.

WOOD

With a palette that ranges from “White Oak” to “Chocolate Oak” to “Catalpa Red”, our design floors offer an extensive range for subtle colour schemes.

The textured surface is modelled after the natural grain of wood and thus, recreates an astonishingly real feel.

STONE

Slate, concrete and other mineral materials were the inspiration for these fascinating stone designs, which have a compelling modern loft allure.

New XL size tiles (e.g. 91.44 x 45.72 cm) are available for particularly spacious interior designs.

## Interior furnishings are our passion

For customers around the world, the name **JAB ANSTOETZ** stands for high-quality interior creations, whose visionary designs set new trends time and again. The core product range of the renowned textile manufacturer is comprised of multifaceted collections of decoration and upholstery fabrics, which are supplemented by roller blinds, pleated blinds and panels for efficient sun protection. As a stylish counterpart to the exclusive furnishing

textiles, the portfolio also includes rugs, fitted carpeting and design flooring in select superior qualities. The harmonious range is completed by meticulously hand-crafted upholstered furniture and a small but refined collection of curtain rods and wallpapers. All products are subtly coordinated with one another and can thus be combined to form well balanced and customised room concepts.

# The perfect look in every room

## Quality is our priority

This motto stands behind all product developments from JAB ANSTOETZ and applies especially to our design floors. We only include tested and externally audited products in our collections.

To ensure that the design floors remain flexible, resilient and supple in their surface, we use a phthalate-free plasticiser, which is also used in the toy industry.

In addition, our floors are also tested for emissions and possess a valid general building inspection approval from the DIBT (German Institute for Structural Engineering) in Berlin.

External institutes regularly certify our products as the best quality. In this way, we guarantee that no objectionable substances are emitted into the ambient air.

Internal random sampling also guarantees continuous high quality standards.

## Our advantages for a long-lasting beautiful floor:

- Authentic wood and stone decors with textured surface
- Size variety for highest flexibility
- For use in all living areas (also kitchen and bathroom)
- Skid-proof and moisture-resistant
- Gentle on the joints and warm on the feet
- Durable, hard-wearing and easy-care
- Sound-insulating due to elastic materials
- Suitable for use with underfloor heating
- Low installation heights from 2,5 to 5 mm
- DRY BACK or click installation
- Due to the special factory-applied PU protective layer the floors can be used immediately
- Recyclable components
- 100% phthalate-free
- Perfect for combining with rugs from JAB ANSTOETZ Flooring

Basket Honey J-40026

Cream J-40032

Design Floor LVT proves just how robust and low-maintenance it is, not only in entryways.

Due to its moisture-resistant and non-skid properties, the design floor is ideal for use in kitchens and bathrooms. The version for glue installation is particularly water-repellent and rugged.

## A creative interplay of shape and colour

You can let your imagination run free when designing your floor. By combining various patterns, you can create floor designs with a captivating and expressive appearance.

Manhattan J-40028 · Manhattan Night J-40029

White Oak J-40001 · Grey Oak J-40005 · Cream Oak J-40010

## Pure relaxation...

Design Floor LVT also looks fantastic in the bathroom. Modern wood or stone appearances set the mood in your private wellness oasis. The glued version is the right choice for optimum protection against slipping and moisture. Allow our partners to assist you with your selection!

**The benefits:**

- Pleasant flexible and warm surface
- Easy to clean and maintain
- Suitable for use with underfloor heating

## Wonderfully practical, splendidly comfortable

### DRY BACK or click installation – your choice

Heavily trafficked living areas such as entryways, kitchens or bathrooms need a floor that can handle continual wear effortlessly. Here, design floors for glue or click installation are the optimal solution.

Design floors with click installation are an outstanding choice for customers who value quick and flexible floor design. Also, thanks to the adhesive-free, floating installation, the original floor remains intact.

Whichever model you choose: All patterns are available in the same decor in a DRY BACK and a click version.

Click version for floating installation

### Surface textures

Design Floor LVT comes with a textured finish, which is specially adapted to the respective pattern.

In this way, the wood and stone decors appear more authentic and even provide a texture that closely resembles nature.

pearl decor

### Skirting board – the perfect transition between floor and wall.

The programme also includes the matching skirting board to act as a coordinated transition between the design floor and wall. The modern cubic shape (15/58) and matching colour allows for a smooth finish at the wall. For lovers of contrasts we offer this format also in white or aluminium.

Especially for use in old buildings, a skirting board is available in white (19/93), with a curved profile that makes a nostalgic impression.

Cubic shape S015/58

White skirting board S019/93

### Technical data

Type of floor covering in accordance with EN ISO 10582:  
Heterogeneous plastic covering with PU surface finishing

Bevel edge – depends on decor	yes	yes
Total thickness ISO 24346 approx.	2,5 mm	5 mm
Chair castor suitability EN 425 / ISO 4918	yes	yes
Suitable for use with underfloor heating	yes	yes
Impact sound improvement EN ISO 16251-1 approx.	~ 4 dB	~ 4 dB
Impact sound reduction with use of CLICK underlay EN ISO 16251-1 approx.	–	~ 15 dB
Degree of slip resistance	R 9* / R 10	R 9* / R 10
Range of use EN ISO 10874	23/32/41**	23/32

\* R 9 only for use with surface Pearl  
\*\* Workshops

Intensive domestic use

Suitable for castor chairs

PU coating

General commercial use

Suitable for under floor heating

Bevel edge

Moderate light-industrial use

Flame-retardant

### Service:

Design Floor LVT can be laid quickly and easily by a professional of your choice. Detailed laying instructions and a current installation manual can be found at [www.jab.de](http://www.jab.de).

We recommend using a special PU cleaner for preservation of value and care of your design floor. This can also be purchased from your local specialist shop. Information on maintenance and care of design floors can be found at [www.jab.de](http://www.jab.de).

### Note:

Please note that the designs depicted in the brochure are only samples of sections. Also, despite having the same decors in both the click and glued versions, there are very slight deviations in colour, which are within the range of customary tolerances. To assist you with the selection of your design flooring, we would be glad to send you an original piece of board or tile. All rights to possible changes due to technical advancement are reserved.
